

# Effortless

Ant Saunders

We knew this wouldn't be effortless  
But that don't affect my preference  
No way I could think different  
It's always gonna be this way

Run my mind like a relay  
Precious in every way  
Look into your eyes  
You just freeze the fucking time  
We can do all the things we want

Baddest in the best way  
You can go 'head and undress, babe  
Loving you is everything I hoped for  
You're the one

We knew this wouldn't be effortless  
But that don't affect my preference  
No way I could think different  
It's always gonna be this way

We've come so far so quick  
But I know I could never be sick  
Of all the times we spend together  
It's always gonna be this way

Hopped on all these flights for ya  
That's how much I adore ya  
Every little occasion calls for dozens of roses  
And some jewelry from Tiffany's (Yeah)

Miles and miles away, baby  
But you know I got no plan B  
I ain't no magician but for you, babe  
Anything's a possibility

We knew this wouldn't be effortless  
But that don't affect my preference  
No way I could think different  
It's always gonna be this way

We've come so far so quick  
But I know I could never be sick  
Of all the times we spend together  
It's always gonna be this way

We're running round just like the kids we are  
Maybe we're supposed to take no precautions  
Baby, like there ain't no other options, oh

'Cause I can tell just when we kiss it's hard  
Not to think bout doing it forever  
I couldn't just do it with whoever
