

BLOODSPORT

ANTAGONİZER

Climb the cross
Steal the eyes of God
My saliva's dripping
Let me hunt
Give me discord
Fuck your love
Give me bloodsport

Hear you bark
Like a drooling mutt
My saliva drips
Open your mouth
Taste the discord
Take off your leash
Give me bloodsport

And as you bare your fangs
You save me
Save me
All the primal gods inside your savage body
Save me
Save me

I am the knife in the dark
The fear that grips your supple heart
The sun that ravages the earth
The storm that tears your world apart

I am the knife in the dark
The fear that grips your supple heart
I am the knife
I am the knife
I am the knife

I am the knife in the dark
The fear that grips your supple heart
The sun that ravages the earth
The storm that tears your world apart

I am the knife in the dark
The fear that grips your supple heart
I am the knife
I am the knife
I am the knife
I am the knife

I am the knife

I am the knife

I am the knife

I am the knife

I am the knife

I am the knife in the dark

The fear that grips your supple heart
The sun that ravages the earth
The storm that tears your world apart

I am the knife in the dark
The fear that grips your supple heart
I am the knife
I am the knife
I am the knife

I am the knife in the dark
The fear that grips your supple heart
The sun that ravages the earth
The storm that tears your world apart

I am the knife in the dark
The fear that grips your supple heart
I am the knife
I am the knife
I am the knife
I am the knife
