

## Better Now

Anth

Whoa  
Should've known  
Why does something good never last long?  
Why does something right always go wrong?  
I said I'm sorry but I waited too long  
Wonder if you've found some company  
Or if you're alone, the same as me  
Never knew how special we would be  
'Til the future changed to memories  
So who you gon' call when you get too drunk?  
All the times that I picked you up  
Held back your hair when you've had too much  
I'd do it all again just to bring back us  
But I can't fix us  
Cus you've had enough  
And it hurts so much
