

Better With You

Anth

Girl let's be honest
I think about you more than I should
And I can't stop it
You know I wouldn't try if I could
And that's a problem
My feelings always misunderstood
For so long
Girl I'm so lost

Baby I don't know how I could forget ya
When you look like that
I keep coming back

And I just don't know where I'm gonna end up
But I hope that it's with you

Oh pretty baby I can tell
We belong together
Ever since I fell
Girl I'm so much better
There ain't no one else that can make me feel every way you do
Girl I'm so much better with you

Oh-woah-oh, I'm so much better with you
Oh-woah-oh, I'm so much better with you
Oh-woah-oh, make me feel every way you do
Girl I'm so much better with you

Tell me are you with somebody
'Cus girl you know I gotta know
Look at all the ways you got me
I wanna get you alone
I love it when you call me papi
Every time I make you moan
You my little Spanish Mami
Drive me loco

But the things that you've been saying
When we drunk in this club
Make me wanna spend all my money
Buy you everything that you want
I don't know where I'm going
Or where I'm gonna end up
But I hope that it's gon' be with you girl
With you girl

Oh pretty baby I can tell
We belong together
Ever since I fell
Girl I'm so much better
There ain't no one else that can make me feel every way you do
Girl I'm so much better with you

Oh-woah-oh, I'm so much better with you
Oh-woah-oh, I'm so much better with you
Oh-woah-oh, make me feel every way you do
Girl I'm so much better with you
