

Hollywood

Anth

I see you out at the club now
You're with your girls and you don't wanna think about me
A couple shots and you're drunk now
You post a story to act like you're over me
But we both know you ain't happy
So why ya tryna pretend that you ain't missing me?
We both know it's a sad thing
To be in love with somebody but you know

Hollywood is overrated
And the movies made me think we'd make it
But this ain't no fairytale
'Cause when you fall in love
It hurts like hell

I'm sorry but
Hollywood, I swear I hate it
And it's all a lie
And I can't take it
And nobody's meant to be
Together like the couples that you see
In Hollywood

You see I'm out at the bar now
I keep on looking for girls who remind me of you
God, I wish you would call now
'Cause I can't take all this heartbreak I'm going through
Tell me girl where you are now
'Cause I might get way too drunk, call a taxi to you
Just know I'm never too far now
I wish that we could've made this work just like

Hollywood is overrated
And the movies made me think we'd make it
But this ain't no fairytale
'Cause when you fall in love
It hurts like hell

I'm sorry but
Hollywood, I swear I hate it
And it's all a lie
And I can't take it
And nobody's meant to be
Together like the couples that you see
In Hollywood
