

# I Hate U, I Love U

Anth

I miss you when I can't sleep  
Or right after coffee  
Or right when I can't eat  
I miss you in my front seat  
Still got sand in my sweater  
From nights we don't remember  
Do you miss me like I miss you?  
Messed around and got attached to you  
Friends can break your heart too  
I'm always tired but never of you  
If I treated, you like a you wouldn't like that  
Held out my hand for you  
You didn't touch that  
I wrote a text but then  
I deleted that  
I got these feelings but  
You didn't realize that  
Oh, oh  
Keep it on the low  
You're still in love with me  
But your friends don't know  
If you want me you would just say so  
If I were you  
I would never let me go

I hate you, I love you  
I hate that I love you  
Don't want to, but I can't put  
Nobody else above you  
I hate you, I love you  
I hate that I want you  
Don't want to, but I can't put  
Nobody else above you

And every single night  
I'm fucking someone else  
It doesn't make a difference and it doesn't fucking help  
These gold digging hoes only want me for my wealth  
Or want me for my fame just like everybody else  
It's like "Anth god damn, what the fuck?  
It's been a year already"  
I could find somebody new  
but I'm just not ready  
Been the woman of my dreams since the day that you met me  
And my Nightmare up On Elm Street, the female Freddy  
And there's a beautiful girl waiting for me at home  
But tell me why do I still feel alone?  
I guess the ones that you love and let close  
Are the same ones that will hurt you the most  
And yeah that's funny to me, yeah that's funny to me  
I thought you wanted to be, I thought you wanted to see  
What our kids would look like, is it you or is it me?  
And now that's gonna be a future that we never gon see  
And yo, I hate to fucking say it but it's all because of you  
'Cos of everything you did and 'cos of everything you do  
Now you thinking you can text me like everything is cool  
But you're fucking someone else so why you fucking with me too?

Then we break down and cry and say this is goodbye  
Said it a million times but we both know its a lie  
Its the circle of life, couldn't escape if you tried  
'Cos you live and you love and then you love and you die  
And I...□

I hate you, I love you  
I hate that I love you  
Don't want to, but I can't put  
Nobody else above you  
I hate you, I love you  
I hate that I want you  
Don't want to, but I can't put  
Nobody else above you

I'm just saying  
You could do better  
Tell me have you heard that lately  
I'm just saying  
You could do better  
And I'll start hating on me  
If you make me
