

# I Miss Her

Anth

And I miss her  
Got me thinking all about all the things I said girl  
I don't wanna lose again  
I don't wanna lose you again  
Girl I feel so alone in the evening time  
No more texting  
No more calling  
Late at night  
I miss you  
Do you miss me too?  
Girl you so fine  
Mmm

And I miss her  
Got me thinking all about all the things I said girl  
I don't wanna lose again  
I don't wanna lose you again  
Girl I feel so alone in the evening time  
No more texting  
No more calling  
Late at night  
I miss you  
Do you miss me too?  
Girl you so fine  
Mmm

Girl I remember when we said that this would last forever  
Two hearts are broken  
It's so sad that we did not know better  
And I tried about a hundred million times  
And it's clear that I cannot forget ya  
No  
Girl I can't let you go  
No

Aye  
And I admit to the world  
You're the love of my life  
It's too bad, so sad that we can't get it right  
Now I'm scrolling through our pictures  
Can't sleep through the night  
Because I miss the way that we were both exactly alike  
I know we got a lot of trauma  
Anybody can tell  
And maybe that's the reason why we put each other through hell  
But if you ever listen to this when you're by yourself  
I love you more than I love myself  
And I swear I miss you

And I miss her  
Got me thinking all about all the things I said girl  
I don't wanna lose again  
I don't wanna lose you again  
Girl I feel so alone in the evening time  
No more texting  
No more calling  
Late at night

I miss you  
Do you miss me too?  
Girl you so fine  
Mmm

And I miss her  
Got me thinking all about all the things I said girl  
I don't wanna lose again  
I don't wanna lose you again  
Girl I feel so alone in the evening time  
No more texting  
No more calling  
Late at night  
I miss you  
Do you miss me too?  
Girl you so fine  
Mmm
