

# If This Is Goodbye

Anth

I feel like we crossed paths at the wrong side  
We fell in love at the wrong time  
Too many break ups  
Too many make ups  
Just to pretend like it's alright

I know there were times it was unreal  
But most of the time it was unfair  
I know there were times I was never there  
But there were never times that I never cared

I swear  
I lost count how many times that I cheated  
I lost count how many times that I lied  
I lost count how many times I decieved ya  
All those nights that I would make you cry

Now I know just how bad I need ya  
Lost without you right by my side  
I'm so sorry I wasted all of your time

If this is goodbye  
I just wanna tell you  
That I promise that I tried  
If this is goodbye  
Then girl I'm so sorry  
For all the times I lied

But people can make some mistakes  
They can learn, they can change  
But I know all it takes is some time  
But if it's too late then I guess  
That I wish you the best  
I hope we'll meet somewhere down the line  
If this is goodbye

Maybe I was immature, maybe I was too young, maybe I was just in denial  
Maybe I didn't realize that I had a good thing that was way more than worth  
my while  
And you loved me for me, not because of ANTH or the money you see  
Not because the chains on my neck, or the cribs that I got, or the trips tha  
t I take over seas

I was too busy running around, different towns, different girls that I'll ne  
ver fall in love with  
When I had a good girl back at home who was down from the start when I never  
really was shit  
Now I feel so dumb, don't say that it's done  
Isabella you know that I still want this  
Baby please be honest  
Do you really not want this?

If this is goodbye  
I just wanna tell you  
That I promise that I tried  
If this is goodbye  
Then girl I'm so sorry

For all the times I lied

But people can make some mistakes  
They can learn, they can change  
But I know all it takes is some time  
But if it's too late then I guess  
That I wish you the best  
I hope we'll meet somewhere down the line  
If this is goodbye
