

## Mi Amor

Anth

You met him online and tonight is your first date  
Text him where he's at, and he says he's on the way  
Think he's worth your time, girl, I swear he's such a waste  
'Cause you and I both know that no one can take my place

'Cause Baby, your love is my love and my love is yours  
And there's no love like our love, I know that for sure  
Yeah, 'cause your love is my love and my love is yours  
And there's no love like our love, forever Mí Amor  
Mí Amor

You and I are something that I can't find  
And I tried. Believe me, girl, I can't lie  
And without you, girl, I'm out my damn mind  
Wishing you was still mine, wishing that we had time  
Me and you could've been so amazing  
Now I hear you steadily tryna find a replacement  
You were always testing my energy and my patience  
Whenever you're ready, baby, you know that I'll be waiting

You know I'm still here, girl, just come back home  
Don't you waste your time, he's not what you want  
And I'll still be here with an open heart  
Baby no, I'm never too far  
No no

'Cause Baby, your love is my love and my love is yours  
And there's no love like our love, I know that for sure  
Yeah, 'cause your love is my love and my love is yours  
And there's no love like our love, forever Mí Amor  
Mí Amor
