

Numb

Anth

I know way too many bitches in my city
It's getting hard to find somebody different
So please excuse if I am acting distant
So distant...

Yeah
Come through
We ain't make plans, so it's on you
Forget about your man now
Fuckin' with the man now
I'ma do the things that he won't do
What you gon' do?
Roll up, roll up
Colombian shaped like a coca
She livin' la vida loca
4 in the morning, she show up
Waist thin, accent so thick
Tight dress, yeah work that shit
Phone's off, no calls, no pics
Work tomorrow, she'll call in sick
She might get fired for that
But fuck it, she like where she at
Girl you know I want you bad
But I'm too fucked up for that
Too numb

I know way too many bitches in my city
It's getting hard to find somebody different
So please excuse if I am acting distant
So distant...

Because I'm way too numb
For me to ever think that you could be the one
But when the night is over I just need someone
So you can fall asleep but just don't fall in love
'Cus I'm way too numb

Yeah I'm way too numb
For me to ever think that you could be the one
But when the night is over I just need someone
So you can fall asleep but just don't fall in love
'Cus I'm way too numb
Way too numb

Girl you know what you came here
What you came to do
What makes you think it wouldn't be the same for you?
You're only 22, there's so much left to do
I'm way too selfish now to save myself for you
That's real shit
You can still be the one that I chill with
Have a drink, have some weed, pop a pill with
No love, no stress, gotta deal with
Yeah, yeah
One week, one week
I've had 5 girls in just one week
I'm not proud girl I'm just lonely

Lately don't know what's wrong with me
I must be numb

I know way too many bitches in my city
It's getting hard to find somebody different
So please excuse if I am acting distant
So distant...

Because I'm way too numb
For me to ever think that you could be the one
But when the night is over I just need someone
So you can fall asleep but just don't fall in love
'Cus I'm way too numb

Yeah I'm way too numb
For me to ever think that you could be the one
But when the night is over I just need someone
So you can fall asleep but just don't fall in love
'Cus I'm way too numb
Way too numb

'Cus I'm way too numb girl
I'm way too numb girl
I'm way too numb, yeah
