

## On My Mind

Anth

My lady, it's crazy  
Girl, I miss you more than you know  
So baby  
Come save me  
I try to hide it but it shows  
My patience  
Is breaking  
You know I hate to be alone  
You know I hate to be alone

So I go and hit the club  
Just so I can pass the time  
People ask me how I've been  
I just tell them that I'm fine  
Talk about you to my friends  
About a hundred million times  
You're still on my mind  
Always on my mind  
Yeah

My addiction  
No prescription  
All I want is you to be mine  
My commitment was always missing  
And I ain't mean to just waste your time  
So who you kidding?  
I know you're with him  
So baby, there ain't no need to lie  
Girl, you know you ain't got a reason to lie  
Oh no

So I'm calling your phone  
'Cause I ain't see you lately  
All of your friends tell me that you still hate me  
I might just come through and give you a baby  
Okay, now hold up, that might be too crazy  
But if you with it, you know that I'm down  
We can just pick up and move outta town  
Girl, I ain't too proud to wait around  
You know

So I go and hit the club  
Just so I can pass the time  
People ask me how I've been  
I just tell them that I'm fine  
Talk about you to my friends  
About a hundred million times  
You're still on my mind  
Always on my mind  
Yeah
