Please stay with me  
I'm already  
In love  
Baby  
But now the sun ain't shining without ya  
Stay with me  
I'm already  
In love  
Baby  
But now the sun ain't shining without ya

I met you way back in 2005  
I'd hit you up and pick you up before I knew how to drive  
We used to sit and get high  
Lay back and stare at the sky  
And then I'd sneak you out the back before my parents arrived

We'd wake up early, get two Slurpee's in our favorite flavor  
We sang along to every song and pissed off all the neighbors  
We used to write our name in hearts on every piece of paper  
We'd fight like every night and then make up 2 seconds later

And both our parents said it wasn't love  
They said that it was a crush  
They said that we shouldn't rush  
They said that we fought too much

But when you love someone, it doesn't mean they're perfect  
It means you look past all their imperfections cus they're worth it

Please stay with me  
I'm already  
In love  
Baby  
But now the sun ain't shining without ya  
Stay with me  
I'm already  
In love  
Baby  
But now the sun ain't shining without ya

And truth be told, I miss you more than you know  
I wonder if we'll ever pick up all the pieces we broke  
Maybe somewhere down the road  
Maybe someday when we're old  
So just in case, I'll leave a space in my closet for your clothes

I heard you moved out to the city with your best friend Holly  
I heard your brother Johnny left and went to join the army  
I heard about your mom and dad, wish I could say I'm sorry  
And if you need someone to talk to, you know you can call me

But I don't wanna let this end  
I wish we could start again  
And go back to us just chilling on my couch  
And watching Friends

So if we meet again, I'll know patience is a virtue  
And just cus somebody loves you, doesn't mean that they won't hurt you

Please stay with me  
I'm already  
In love  
Baby  
But now the sun ain't shining without ya  
Stay with me  
I'm already  
In love  
Baby  
But now the sun ain't shining without ya
