

With You

Anth

Yeah, yeah, yeah, yeah
Yeah, yeah

I wonder what my life would've been like if I ain't have you
I'd probably be at the club like every night and acting a fool
Buying some bottles for girls who ain't important
Taking them back to my crib until the morning
I don't know what I ever did in my life to meet a girl like you

'Cause baby, ever since we got together
Life just got much better
Might not last forever
But 'til then, girl you're mine

And I don't care if we're going out
Or stuck in the house
'Cause girl, I'd rather be with you

And I don't care if we're at the club
Or if we're turning up
But just as long as I'm with you

And I don't care about them other girls
That might be in this world
Because I'm already with you

And I don't care about them petty fights
That we have every night
Because I'll always be with you
Always with you

Yeah
Girl, I'm just trying to get closer
You ain't ever had a man who treat you like he supposed to
Heard you don't believe in love
Because a man screwed you over
But I don't care how many times you leave make up on my shoulder
'Cause when you cry, I cry
And when I ride, you ride
And baby, there ain't nothing that could come between you and I
Because I'm yours, you're mine
We keep it real
No lies
And girl, I hope we never see the end of time

'Cause baby, ever since we got together
Life just got much better
Might not last forever
But 'til then, girl you're mine

And I don't care if we're going out
Or stuck in the house
'Cause girl, I'd rather be with you

And I don't care if we're at the club
Or if we're turning up
But just as long as I'm with you

And I don't care about them other girls
That might be in this world
Because I'm already with you

And I don't care about them petty fights
That we have every night
Because I'll always be with you
Always with you
