You Make Me

Anth

Stop your speakin', girl we're wasting time
All you need to know is I'm all yours and you're all mine
And I don't need another friend, I got enough for life
So if we gonna do this thing girl, we gotta things right

Don't care whether we go, we go
First class outta Heathrow, Heathrow
Long as you're with me though, me though
All the way

I can tell that mami you know, you know
You're the kinda girl to move slow, move slow
But baby if it's cool though, cool though
Let's go all the way

You make me want all this
You make me work for it
You make me want all the things that I never knew I wanted

You make me so nervous
You do it on purpose
You make me go all the way and I know I don't deserve it

Stop your reasons, girl we'll be alright
You ain't gotta work tomorrow so you can stay the night
What's another broken heart girl? I'll risk it all tonight
I know they say that love is dangerous but girl I'll pay that price

Don't care whether we go, we go
First class outta Heathrow, Heathrow
Long as you're with me though, me though
All the way

I can tell that mami you know, you know
You're the kinda girl to move slow, move slow
But baby if it's cool though, cool though
Let's go all the way

You make me want all this
You make me work for it
You make me want all the things that I never knew I wanted

You make me so nervous
You do it on purpose
You make me go all the way and I know I don't deserve it

I wanna get to know the shape of your body
I'll let my hands do all the talking to you
Don't be afraid to tell me how bad you want it
Don't be ashamed girl, you know I want you too

You make me want all this
You make me work for it
You make me want all the things that I never knew I wanted

You make me so nervous
You do it on purpose

You make me go all the way and I know I don't deserve it
