

## Automatic Love

### Anthem Lights

Years gone by and stakes are higher  
So much more to lose  
Water's rising, winds are stronger  
But I'm attached to you

Push will shove us both  
But there's one thing you should know

I will always love you  
Don't you know I'm programmed to love you  
With an automatic, automatic love  
It's an automatic, automatic love

The kids don't sleep, we're going crazy  
The bills pile miles high  
And all this madness, and yet I'm saying  
I will love you till the day I die

Talk will always be cheap  
So I'll do what it costs me to make you see that

I will always love you  
Don't you know I'm programmed to love you  
With an automatic, automatic love  
It's an automatic, automatic love

Like the wind over the sea  
Or the rain falling in the spring  
Like the snow over the northern plains  
Or the happiness when seasons change  
Like the storm cloud rolling through  
Giving way to skies of blue  
It's all been proven true  
As automatic as my love for you

I will always love you  
Don't you know I'm programmed to love you  
With an automatic, automatic love  
It's an automatic, automatic love
