

Falling Awake

Anthem Lights

Funny how my lips move but no words are coming out
Puzzle pieces sewn into my mind
Blow a kiss and watch my house of cards come crashing down
Till there's nothing left to hide behind

Help me love, help me understand
Help me love, give me your hand
It's you, only you, you and me tonight
You, only you with no disguise
You do, baby do, you open up my eyes
And I'm falling awake in your arms tonight

Hold me closer, babe, keep the wind chill away
Turn the gray into a symphony
Hold me underneath the moon until spring shows its face
Out upon the silver seas

Listen love, it's all around
Listen love, listen to the sound
Of you, only you, you and me tonight
You, only you with no disguise
You do, baby do, you open up my eyes
And I'm falling awake in your arms tonight

Help me love, help me understand
Help me love, give me your hand
'Cause it's you, only you, you and me tonight
You, only you with no disguise
You do, baby do, you open up my eyes
And I'm falling awake in your arms tonight
