

# Follow Your Heart

## Anthem Lights

Some say follow your own heart  
And it will never lead you astray  
Some say chase your own dreams  
That's all that matters anyway  
Well I've been there, done that, tried that, lived that  
Way like it it was all for me  
And I came back, found out, truth is, turns out  
To get me where I'm meant to be

[Chorus:]

I gotta follow your heart  
If anything is gonna count in this life  
I gotta follow your heart  
If I'm ever gonna make a mark on eternity  
So let heavens heartbeat always move me  
Let me only prayer be  
To follow your heart  
Help me follow your heart

I don't need a second opinion  
You just say the word I'll go (you just say the word I'll go)  
And I don't need any convincing  
To walk along a narrow road (walk along a narrow road)  
Cause I'm all in, sold out, can't turn, back now  
These are more than empty words (these are more than empty words)  
For the things that, I want, I trust, you God  
I'll just keep the first thing first

[Chorus]

[Bridge:]

I count it all as joy  
To give this life away, away  
There's not a cost too high  
Or price that I won't pay

To follow your heart (follow your heart)  
Follow your heart (follow your heart)  
Gotta follow your heart (follow your heart)  
Help me follow your heart

I gotta follow your heart  
If anything is gonna count in this life  
I gotta follow your heart  
If I'm ever gonna make a mark on eternity  
So let heavens heartbeat always move me  
Let me only prayer be  
Your heart  
Follow your heart  
Help me follow your heart (follow your heart)  
Help me follow your heart  
Help me follow your heart  
Help me follow your heart  
Follow you heart
