

# Just Be You

## Anthem Lights

No one can do it just like you  
Something magic in the way you move  
You're original, you know it's true  
Don't let anybody take your tune  
You ain't got a single thing to prove  
You're original so just be you  
Just be you

You're one of a kind  
The kind of once in a lifetime  
Not just another face in the crowd  
You light up a room  
With the light that's inside you  
Don't be afraid to let it out

So hold your head up  
Don't let anybody get you down

No one can do it just like you  
Something magic in the way you move  
You're original, you know it's true  
Don't let anybody take your tune  
You ain't got a single thing to prove  
You're original so just be you  
Just be you

Ooh, just be you  
Ooh, just be you

You gotta believe  
You're here for a reason  
This world needs somebody like you  
Cause anybody can be a copy  
And there will always be people talking  
So face your fears and chase your dreams  
And dance like no one's watching

No one can do it just like you  
Something magic in the way you move  
You're original, you know it's true  
Don't let anybody take your tune  
You ain't got a single thing to prove  
You're original so just be you  
Just be you

Ooh, just be you  
Ooh, just be you

You're one of a kind  
The kind of once in a lifetime  
Not just another face in the crowd

No one can do it just like you  
Something magic in the way you move  
You're original, you know it's true  
Don't let anybody take your tune  
You ain't got a single thing to prove

You're original so just be you  
Just be you

Ooh, just be you  
Ooh, just be you
