## Anthem Lights

I can't lie  
Never could get the words on my mind  
To come out right  
But the way You speak  
When you're not even moving your lips  
Makes sense to me

You got me  
Talkin gibberish like it's  
My first sentence I've been  
Learning phrases  
To show you that I want you

Every time we talk  
It's like you're teaching me another language  
Every time we touch  
Oh it's fireworks fireworks  
I can't get enough  
I'm addicted to your conversation  
It's amazing  
We're speaking our  
Speaking our  
Own language  
Our own language

I don't mind  
When you tell me a story I've heard  
A hundred times  
It's the way you speak  
Your inflection and your passion  
Is infatuating

You got me  
Talkin gibberish like it's  
My first sentence I've been  
Learning phrases  
To show you that I want you

Every time we talk  
It's like you're teaching me another language
