

Light For You

Anthem Lights

So many souls need your hope
Let me go I'll leave it all behind
They're all around in my town
In my city there not hard to find
We can brighten up the dark
We can heal their wounded hearts
So many souls need your hope
Let me go I'll leave it all behind

I wanna be a light
I wanna shine so bright
I wanna be a light for you
A light for you
I wanna be a light
I'll set the world on fire
I wanna be a light for you
A light for you

I'll lay my life on the line
Not a price that I wouldn't pay
That's how you love me
That's how you want me
So I'm ready to love you the same way

We can brighten up the dark
We can heal their wounded hearts
Lay my life on the line
Not a price that I wouldn't pay
To love you in the same way

I wanna be a light
I wanna shine so bright
I wanna be a light for you
A light for you
I wanna be a light
I'll set the world on fire
I wanna be a light for you
A light for you

I wanna be a light for you
A light for you

Lay my life on the line
Not a price that I wouldn't pay

Set me on fire

I wanna be a light
I wanna shine so bright
I wanna be a light for you
A light for you
I wanna be a light
I'll set the world on fire
I wanna be a light for you
A light for you

I wanna be a light for you

A light for you
