Feelin' like I got a front row seat to watch everybody be happy Can't even paint a smile on my face, it's so hard to not compla in

Gotta try not to say
O God, what about me
'Cause I know that's not the way that I'm supposed to be

Get me outta my mind and into Your heart
It's not about me, it's not about me
So I'm gonna start playin' my part in Your design
Now is the time
Get me outta my mind
Outta my mind

There's a bigger picture on display and it's starting to come in focus

Causing me to see to see the ones in need outside my little world

Gotta try, just to say

O God, what can I do

Doesn't matter what it takes, I wanna lead them all to You

Get me outta my mind and into Your heart
It's not about me, it's not about me
So I'm gonna start playin' my part in Your design
Now is the time
Get me outta my mind
Outta my mind

If anybody asks me what have I been up to This is what I'm gonna say I've been spending my time, outta my mind And I'm really lovin' livin' this way [x2]

Get me outta my mind and into Your heart
It's not about me, it's not about me
So I'm gonna start playin' my part in Your design
Now is the time
Get me outta my mind
Get me outta my mind
So I'm gonna start playin' my part in Your design
Now is the time
Get me outta my mind
Outta my mind
