

# Overflow

## Anthem Lights

Blessings, it's overwhelming, it's never-ending  
You defend me when I don't even know  
Heavy, life is heavy, but You suspend me  
Keep me steady and You won't let me go

So I will sing Your praise, right now and all my days  
Your grace is so amazing, what can I say

Your light crashed in and opened my soul  
You showed me a hope that I've never known  
Your love pours out more than I can hold  
It's an overflow  
There's no limit with Your wind in my sails  
You keep on giving, even when I fail  
Your love pours out more than I can hold  
It's an overflow

It's an over, it's an over, its and over, it's an overflow  
It's an over, it's an over, an overflow

Thank you, for every breakthrough  
Walls can't contain You, there's no measuring the depth of Your love

I will sing Your praise, right now and all my days  
Your grace is so amazing, what can I say

Your light crashed in and opened my soul  
You showed me a hope that I've never known  
Your love pours out more than I can hold  
It's an overflow  
There's no limit with Your wind in my sails  
You keep on giving, even when I fail  
Your love pours out more than I can hold  
It's an overflow

It's an over, it's an over, its over, it's an overflow  
It's an over, it's an over, an overflow

Your grace is so amazing (Your grace is so amazing)  
Your grace is so amazing (it's an overflow)  
Your grace is so amazing (Your grace is so amazing)  
Your grace is so amazing (it's an overflow, overflow)

Your light crashed in and opened my soul  
You showed me a hope that I've never known  
Your love pours out more than I can hold  
It's an overflow  
There's no limit with Your wind in my sails  
You keep on giving, even when I fail  
Your love pours out more than I can hold  
It's an overflow

It's an over, it's an over, it's an overflow  
It's an over, it's an over, an over, overflow
