

Weightless

Anthem Lights

Sometimes I'm stuck in the past
Counting all the things that I can't take back
Or I'm afraid of what's next
Wish I could get a clue of whats ahead

But I don't need to worry cuz you're already there
Breaking all the chains and now I'm up in the air
I took a breathe and I'm finally feeling you close

When I let go and give up control
I feel weightless, when my faith is
In your hands, you take my worries and
You erase 'em, by your grace I'm
Feelin' weightless
Weightless

You've given me a new life
Took me from the ground to your holy skies
If storms surround every side
I know that you'll fight for me
I know that you'll fight

When I let go and give up control
I feel weightless, when my faith is
In your hands, you take my worries and
You erase 'em, by your grace I'm
Feelin' weightless
Weightless

Like someone new
Now my point of view
Is so much higher
I feel lighter and it's all because of you

Way up here
In the stratosphere
You give me rest
Take my stress
And make it disappear

When I let go and give up control
I feel weightless, when my faith is
In your hands, you take my worries and
You erase 'em, by your grace I'm
Feelin' weightless
Weightless
