

Working on It

Anthem Lights

You know I messed up
A time or two before
I made a mess of
What we've been fighting for
Learning my lesson
Just wanna be enough
Trying my best, love
My best, love

Every night I don't spend with you
Is a night that I can't get back
Give me time I can make this right

Baby, please
Don't say we had nothing
Didn't we count for something
Baby, why can't we
Try to start this over
Just wanna be closer to you

I'm over bringing us down
Let the past be the past now
Won't ever be perfect
But I know we'll be worth it
I can be everything you wanted
I swear I'm working on it

I got these demons
And I know you've got some too
Give me a reason (reason)
How we can make it through

Every second that I spend with you
Is a moment I want to last
Give me time I can make this right

Baby, please
Don't say we had nothing
Didn't we count for something
Baby, why can't we
Try to start this over
Just wanna be closer to you

I'm over bringing us down
Let the past be the past now
Won't ever be perfect
But I know we'll be worth it
I can be everything you wanted
I swear I'm working on it

I'm working on it, I'm working on it
I'm working on it, I'm working on it
I'm working on it, I'm working on it (I swear I'm working on it)
I'm working on it, I'm working on it (I'm working on it)

I can be everything you wanted
I swear I'm working on it
