

Do you think that we could get away?
Maybe we should find some time to waste
I'm so sick of wi-ishing that I could get a break
'Cause it's you on my mind when I'm stuck here every day

And we don't need no game plan
I know you feel the same, man

My house is open
Are you gonna come through
I'm down to be up to nothing
Up to nothing with you
Head up in the clouds
Laughin' really loud
Sittin' on the couch
Watching Scooby Doo
Do you wanna chill with me?
'Cause I wanna chill with you

Do you think that we could unwind?
'Cause every second with you just blows my mind

I'm tired of being so busy
I just wanna relax
Are you with me?
I could have you feeling nice, ooh

And we don't need to daydream
When we could have the real thing

My house is open
Are you gonna come through
I'm down to be up to nothing
Up to nothing with you
Head up in the clouds
Laughin' really loud
Sittin' on the couch
Watching Scooby Doo
Do you wanna chill with me?
'Cause I wanna chill with you

Do you wanna chill with me?...
'Cause I wanna chill with you...

My house is open
Are you gonna come through?
I'm down to be up to nothing
Up to nothing with you
Head up in the clouds
Laughin' really loud
Sittin' on the couch
Watching Scooby Doo
Do you wanna chill with me?
'Cause I wanna chill with you
