

## Consumed

Anthony Brown & group therAPy

Not because I've always made the right decisions  
Not because I've stayed within your will  
Not because I've always done the things you asked me to  
But the only reason I'm here is because of you

Not because I've always made the right decisions  
Not because I've stayed within your will  
Not because I've always done the things you asked me to  
But the only reason I'm here is because of you

And it's only because every morning your compassions for me are new  
And it's only because of your mercies that we are not consumed  
And it's only because every morning your compassions for me are new  
And it's only because of your mercies that we are not consumed  
And it's only because every morning your compassions for me are new  
And it's only because of your mercies that we are not consumed

And it's only because every morning your compassions for me are new  
And it's only because of your mercies that we are not consumed

Oh oh oh... and the praise goes right there  
Oh oh oh... and the praise goes right there

We cry oh oh oh... and the praise goes right there  
We cry oh oh oh... and the praise goes right there

We cry oh oh oh... and the praise goes right there  
We cry oh oh oh... and the praise goes right there

And the praise goes right there  
And the praise goes right there  
And the praise goes right there  
And the praise goes right there  
And the praise goes right there  
And the praise goes right there  
And the praise goes right there

And it's only because every morning your compassions for me are new  
And it's only because of your mercies that we are not consumed
