

J-E-S-U-S

Anthony Brown & group therAPy

I got a friend
Who sticks by me
Through dangers seen, and unseen
I got a friend, yeah
Who means more to me
Than anything, that you could ever give
He's got the whole world, in His hands
And that includes me, and everything I need, yeah
And everyday gets better
And every moment sweeter
And when they ask me about Him
Here's my answer

(I may not have a fancy car) but what You gave me
(But what You gave me gets me so far
I may not have the funds to give) but everything I need
(But everything I need You already is
I mean You already are) oh
(And that's why I love you cause You understand my flaws Lord
I just want to give You praise, I lift my hands and say)
Everybody say

(J, I just can't get enough
E, You're everything I need
S, I'm so in love with
U, yes last
S, say it loud it's Jesus Jesus)

See everyday with Jesus is summer time
Feel like I'm on the beach and the sun is shining
Feel like I'm in the air walking on the clouds
Man it feels so good to say that I'm alive
Ain't nobody like Him, ain't nobody like Him
King on the throne but, yet He is my friend
And He is my God, my God, icon
Grace for the broken when we blow it like like wind yeah
Cause ain't nobody better
Ain't nobody greater since the day I met Him
See I was only five and I read it in His letters
That His anger is for a moment but His love is forever yeah
So why should I complain
Said that He'd be with me for the rest of my days
If it's standing on a mountain or walking through a maze
Know that your boy will forever be amazed
Give Him praise, leggo

(I may not have a fancy car) but what You gave me
(But what You gave me gets me so far) uh huh
(I may not have the funds to give) but everything I need
(But everything I need You already is
I mean You already are) oh
(And that's why I love you cause You understand my flaws Lord
I just want to give You praise, I lift my hands and say)

(J, I just can't get enough
E, You're everything I need
S, I'm so in love with

U, yes last
S, say it loud it's Jesus Jesus)

Everybody
Put it in the air
(Say it everywhere
He's the same God
Yesterday, today, forever)
There's power in His name yeah
(We gon make Him famous)

Say you are (waaoh, waaoh, waaoh)

(J, I just can't get enough
E, You're everything I need
S, I'm so in love with
U, yes last
S, say it loud it's Jesus Jesus)
