

# Lost

Anthony Brown & group therAPy

I'm so lost without You  
I'm so lost without You  
Hear me saying  
I'm so lost without You  
Like a ship without a sail  
It's all I care about You  
I'm so lost without You

(I'm so) way, up way up in the mount  
Life goes around and around  
Things are much crazier now  
Than they used to be  
The only reason I'm cool is because I know I have You  
Without You what will I do?  
No really, what would I do?

I can't even imagine how I got through the days  
When I tried and I tried to do things all my way  
Just one minute without You makes me feel so alone  
I'ma click my heels to find my way back home

'Cause I'm so lost without You  
Like a ship without a sail  
It's all I...  
I'm so lost without You

I'm so  
I will (Walkin' up now)  
I walk (Walkin' up now)  
I am (Walkin' up now)  
To know that You're always gonna come  
Now  
Promise Your way  
I'll do  
Whatever You say  
You keep  
Me from falling  
And it just don't get no better

I can't even imagine how I got through the days  
When I tried and I tried to do things all my way  
Just one minute without you makes me feel so alone  
I'ma click my heels to find my way back home

'Cause I'm so lost without You  
Like a ship without a sail  
That's all I care, yeah  
I'm so lost without You

I'm trying to figure it out  
With the way that I'm askin' why  
I'll just let you work it out  
I'ma let You be God  
I'ma be, I'ma be made  
My job is to worship You and live for You  
So everyone can see that You are the way  
You are the truth, You are the light

I know that I cannot make it without You  
You are the way, You are the truth, You are the light  
I know that I cannot make it without You  
Y'all know my brother, Sho Baraka

Gave us grace, gave us life and we escaped from death  
He washed my sins away, your boy, He's feelin' Easter fresh  
I know He's worthy of my early to praise Him first  
I was lost but now I'm found, You can stop the search  
Now I'm God's property like some early Kirk  
He got me all up in this world like the early church  
His forgiveness is evidence of Genesis, mane  
He ain't finished with us, can I get a witness, mane?  
Dodging hate, seek His face, removing doubt  
If you ain't talking faith, homie, then what you talking about?  
He's the way truth light my provider  
Holy like love, my messiah  
Shot up in my bones all consuming fire  
I am that I am ain't nobody higher  
Beginning and end, I was so wrong to doubt You  
Basically I'm saying that I'm so lost without You

I swear, You make my, You make my life so legit  
I swear that walkin' by faith is so lit  
My life would be absolutely sanity free  
I don't even want to think about it, no  
And if You ain't going I don't want to go  
I tried the high way and my way and finally now  
I know, I know You are the one  
You are the (Truth), You are the (Life)  
I know that I cannot make it without You  
I can not make it, no, no, no  
You are the (Way), You are the (Truth), You are the (Life)  
I know that I cannot make it without You  
Lord, oh, no, no, yeah

I can not make it without You  
I don't even want to try to  
Why would I tell me why  
Thinks on my own when I say I belong to You  
'Cause You are Jehovah  
Tribe, Abba, and the ending  
With You I know that I can do  
Everything that You created me to do  
Let me be famous before You  
Walking the way that You want me to  
I am the triumph to please everything  
I'm melting before Ya  
I'm so glad that I know that  
Lord, I'm so down for whatever  
Now it's me and You together  
Forever, ever, ever

Oh, yeah, I ain't lost no more  
Oh, yeah, forever  
Oh, yeah, I ain't lost no more  
I ain't lost no more
