

# Never Alone

Anthony Brown & group therAPy

What I feel in this life  
Things can get lonely sometimes  
What I know  
Finally, I know  
That with You, I'm never alone

Yeah  
Yeah  
Yeah  
This song makes me smile  
Even on the bad days  
Yeah, sing with me  
And go with me, say yeah

Every time I'm down, I  
Think about this true  
This special promise that is just between me and You  
It brings a ray of sunshine  
Into the darkest days  
It makes the bad thoughts and the sad thoughts go far away  
Soon as You said it and I heard it, I didn't believe it  
It changed everything, whoa  
Everything, and the more I sing the more I know  
It's true  
I can hear You saying to me

I will be with you  
Be with you always  
Even until the end of time  
You are never alone  
You are never alone

Yeah  
Yeah  
Yeah

Every time I'm down, I  
Think about this true  
This special promise that is just between me and You  
It brings a ray of sunshine  
Into the darkest days  
It makes the bad thoughts and the sad thoughts go away  
Hey, hey  
It changed everything, everything  
And the more I think, the more I know it's true  
I can hear You saying to me

I will be there with you  
Be with you always  
Even until the end of time  
No, you are never alone  
You are never alone

I will be with you  
Be with you always  
Even until the end of time  
Oh, you are never alone

You are never alone

I will be with you  
Be with you always  
Even until the end of time  
No, you are never alone  
You are never alone

Oh, I will be with you  
Be with you always  
Even until the end of time  
No, you are never alone  
You are never alone
