I only got time for the real this year
And it don't get no realer than you

Who was right there every time that you call
(My God is)
Who was right there to pick u up when you fall
(My God is)

Who was right there to meet every one of your needs
(My God is)
Who makes way after way never forsakes you and never leaves
(My God Is)

I don't care what the worlds saying
I've seen the works of his hand
He's come through time and time again
And you can't make me doubt him

(I don't care what the worlds saying)
(I've seen the works of his hand)
(He's come through time and time again
(And you can't make me doubt him)

I only got time for the real this year
I only got time for the real this year
I only got time for the real this year
And it don't get no realer than you

The love he gives me is real
The joy he gives me is real
The peace he gives me is real
Yeah he's so real to me

The healing he gives is real
The feeling he gives is real
He is always there when I need him
He's so real to me

That is why I love him so
That is why I love him so
He's so real to me

That is why I love him so
That is why I love him so
He's so real to me

The love he gives me is real
The joy he gives me is real
The peace he gives me is real
Yeah he's so real to me

The feeling he gives is real
The healing he gives is real
He is always there when I need him
He's so real to me

That is why I love him so
That is why I love him so
He's so real to me

That is why I love him so
That is why I love him so
He's so real to me

I only got time for the real this year
I only got time for the real this year
I only got time for the real this year
And it don't get no realer than you

I only got time for the real this year
I only got time for the real this year
I only got time for the real this year
And it don't get no realer than you

Give it up for my brother
That's the smoothest voice in gospel music right there
