

# Into Your Heart

Anthony Callea

Why does it have to be so hard  
Does it have to hurt so much  
When i want you so bad  
When are you ever gonna realise  
All the love i feel for you inside  
And just won't go away

Maybe you don't know it  
And maybe i don't show it  
No one else will ever do  
If you only knew  
The love i have for you

Is there something holding you from me  
Is there something i can't see  
What's holding you back  
Let me into your heart  
Cos i don't ever want to make you cry  
All i want to do is make you mine  
Don't be afraid  
Let me into your heart

What makes me think about it constantly  
It's a special kind of chemistry  
When two hearts collide  
And how can a feeling be so strong  
That it makes me feel i can't go on  
I gotta get closer to you

Maybe you don't know it  
And maybe i don't show it  
No one else will ever do  
If you only knew  
The love i have for you

Is there something holding you from me  
Is there something i can't see  
What's holding you back  
Let me into your heart  
Cos i don't ever want to make you cry  
All i want to do is make you mine  
Don't be afraid  
Let me into your heart

Oh, i can't deny it  
Don't want to hide the way i feel  
I just got to tell you baby  
Don't want to fight it  
Together we can make it real  
Tell me baby  
I need to know

Is there something holding you from me  
Is there something i can't see  
What's holding you back  
Let me into your heart  
Cos i don't ever want to make you cry

All i want to do is make you mine  
Don't be afraid  
Let me into your heart
