

# Oh Oh Oh Oh

Anthony Callea

You are the magic  
And everything that I have always imaging  
The way your body moves when you are dancing  
Like the music hits you and passing you captivate my soul  
You got me going to a place that I like  
We're gonna party got the feeling tonight  
I am in the moment can take you out of my sight  
You're gonna show me show me love is alright  
You are something I never seen  
I don't mean you to leave  
You give me feelings like oh oh oh  
Can you complete what I need  
I got the faith and believe that I can make you feel oh oh oh

You [x6]

Start ridin' brake all of the rules  
So excited take it to the moon  
Like a rocket in every galaxy  
You know you love it  
Let's get on

You got me going to a place that I like  
I am not gonna fight it  
I am in the moment can take you out of my sight  
You're gonna show me show me love is alright  
You are something I never seen  
I don't mean you to leave  
You give me feelings like oh oh oh  
Can you complete what I need  
I got the faith and believe that I can make you feel oh oh oh
