

A Way for Me

Anthony David

If I never said it before
If I never say it enough
If I keep pretendin' I'm hard
If I on buildin' this wall around my heart
How will you know what I'm feelin'?
How will you know my respect for you?
How will you know that I'm grateful?
For all the things that you brought me through

And I know, we've had our differences
From the very start
And I know, you've always loved me
And I'll never forget, I'll never forget

That you made a way for me
A way for me
And what you gave to me
I could never repay

I think the problem is we're way too much alike
I give my free-spirit ways after off from somebody
But things were different back then, you had to be focused
Before you knew it, you had to provide for everybody
I can't imagine that pressure
Before you knew you got into
Life and limit every corner
And still you did what you had to do

And I know, you've often sacrificed
From my benefits
And I know, you've always loved me
So I never forget, I never forget

That you made a way for me
A way for me
And what you gave to me
I could never repay
