

Ayodele (Joy Comes Home)

Anthony David

We may not have control or have a say and how any of this works
So many times we're faced with the cold reality that is not for
ever

Since we're connected we're affected whenever anyone of us hurt
Trying times if nothing else will always pull us back together

So whatever we can control
We gonna do it
And whatever it takes to help you to get through it
We won't go without a fight
We shouldn't have to face one step of this alone
We just want your time
We just wanna talk to you
We don't want you gone
We are not ready to accept it yet
We don't ask for much
We just wanna walk with you through this thing called life
For a little bit longer

Ayo. Ayo. Ayo. Ayo. Ayo. Ayo. Ayo. Ayodele

It's good to know that people care and empathise with what we're
feeling
All over the world even if they give us just a moment of their
time
Prayers and good thought sending light and love with just a dol
lar touch of healing

You is the reason that I remember that there's still good in ma
nkind

So whatever we can control
We gonna do it
And whatever it takes to help you to get through it
We won't go without a fight
We shouldn't have to face one step of this alone
We just want your time
We just wanna talk to you
We don't want you gone
We are not ready to accept it yet
We don't ask for much
We just wanna walk with you through this thing called life
For a little bit longer
