

Believe Me

Anthony David

You know you're gonna be mine someday
We both know this -
... can't control it!

You and I are gonna be "we" anyway
We both know this -
... can't control it!

Just say, "It's all right. it's alright"
And we can make it happen now

Just say, "It's all right. it's alright"
And we can make it happen now

If you knew what I do
Then you'd do what I ask
And give your love to me

I've been pursuing you for so long
And you know that I'm worthy
I'm worthy

I'm telling you, I'll be always there for you

Baby, believe me
I've got what it takes to please and
You've got to be crazy
Not to see that
You and I should be together

Baby, believe me
I've got what it takes to please and
You've got to be crazy
Not to see that
You and I should be together

This kind of love is divine, they say
'Cause the angels are singing
Don't you hear it?
You know, there's just a thin line, they say
Between friends and kindred spirits

Just say, "It's all right. it's alright"
And we can make it happen now

Just say, "It's all right. it's alright"
And we can make it happen now

Some people live their whole lives
And don't get half-a-chance
To share this love we have, baby

The very fact that we met
Girl, it's not happenstance
It's magic
And, it's welcome

I'm telling you, I'm really feeling you!

Baby, believe me
I've got what it takes to please and
You've got to be crazy
Not to see that
You and I should be together

Baby
I do love you, believe me
Don't you push me away!
Whatever you want from me
I want to be your company
Baby, baby, baby, sho' nuff
You've got to be crazy
Not to see that
You and I should be together

Some people live their whole lives
And don't get half a chance
To share this love we have

The very fact that we met
Girl, it's not happenstance
It's magic
And, it's welcome
