

Can't Look Down

Anthony David

Can't look down
No I can't look down baby
I'm afraid I might enjoy the view
No I can't look down baby
I'm afraid I'll fall in love with you

I'm afraid if I look into your eyes girls
Gonna like what I see
I'm afraid if I hold you in my arms girl
It's where I want you to be
I'm afraid if I let you in my heart girl
Gonna change the beat
I'm afraid if I let you in my life girl
You're gonna make it complete

So I can't look
No I can't look down baby
I'm afraid I might enjoy the view
No I can't look down baby
I'm afraid I'll fall in love with you

I'm afraid if I kiss you on your lips girl
I might get carried away
I'm afraid if I let you in my dreams girl
Then I'll never awake girl
I'm afraid if I look into my future
That you're gonna be there
Tell you what I'm afraid of the most is
That I won't even care

So I can't look
No I can't look down baby
I'm afraid I might enjoy the view
No I can't look down baby
I'm afraid I'll fall in love with you

So I can't look
No I can't look down baby
I'm afraid I might enjoy the view
No I can't look down baby
I'm afraid I'll fall in love with you

I just might want you girl
I just might need you girl
I just might want you girl
I just might need you girl

I just might want you girl
I just might need you girl
I just might want you girl
I just might need you girl
