

Love Out Loud

Anthony David

Uh, yeah, hey

Don't you miss that feelin'?
That little feelin' when it creeps
Inside yo' soul and takes you over
Don't you miss that passion?
That simple passion whether it's true or not
The memories last forever

It could make you weak, and it could make you helpless
But it could make you strong, and it could make you selfless
It could drive you crazy, and it could make you reckless
But it's the only way you'll ever know you're alive

When you love out loud, love out loud
Love out loud, love out loud
Sing it to the clouds, love out loud
Love out loud

Don't you miss expression?
Honest emotions whether you agree or not
It makes you feel somethin'
Now don't hold it in
Show your affection if it's
Love it should be screamed from the highest mountain

Whatever ya seek, you'll surely find it
In search of the meek, in search of the blinded
Open your mouth to speak, and back it up for faction
'Cause that's the only way you'll ever know you're alive

Show your love out loud, love out loud
Love out loud, love out loud
Sing it to the clouds, love out loud
Love out loud

Can we get back to love? Can we get back to love?
There's nothin' better than, better than
Can we get back to love? Can we get back to love?
Love like you've never been hurt before
Can we get back to love? Can we get back to love?
(Don't you miss that feelin'? That feelin')
Can we get back to love? Can we get back to love?
Love, love, love, love

Show your love out loud, love out loud
Love out loud, love out loud
Say it to the clouds, love out loud
Love out loud
