

# Out Of My League

Anthony David

She's out of my league  
She's too much for me  
She's out of my league  
But she says I'm all that she needs

She's a girl with the fresh handbags and her shit together  
What would she do if she blew the hole in my armor  
And every time we fight I know that her friends keep telling her  
All in her ear saying she could do better  
And if you think I don't what they say well I do  
How she could be high when she shoot so low with me  
You know they must be right cause I stay up at night just wonderin  
When she's gonna leave

She's out of my league  
She's too much for me  
She's out of my league  
But she says I'm all that she needs

Man, I think I'm in way over my head when we're together  
How she could be with any man that she pleases  
And I know I shouldn't trip cause all she really wants is me, her lover  
I can't believe that I'm the one she chooses  
And if you think it gets by when her mother's try with those soft summer nights  
Well I'm well aware  
I used to think that he was better than me, but he'll let go  
She's still there even though she's out of

She's out of my league  
She's too much for me  
She's out of my league, she's way too much  
But she says I'm all that she needs

Let me tell ya  
I'm a superman, lifetime super plans  
Hit the club and a nigga do a super dance  
Don't get green, no cake, no interstate  
Nothing fancy just some dreams to facilitate  
And I'm not the type to put myself down but a queen need a king and that girl got a crown  
Makin me assess my bone and look around  
Once she sees these 400 credits she gon get it

She's out of my league  
She's too much for me  
She's out of my league, she says she ain't with it though  
But she says I'm all that she needs
