

The Water The Fire

Anthony David

Take me to the water
Take me to the well
I wanna see things in my lifetime
And I wanna live to tell

Now I am open to every experience
And I invite the pleasure and the pain
Wanna be a vessel through which my creator speaks
Wanna be the wind, and seas, the sunshine and the rain

Take me through the fire
Take me through the flame
I wanna see things that will change me
So I'll never be the same

Now I can dance the dance of the victorious
And I can stand and weather any storm
I'm growing stronger through all my adversity
As long as I can breath I'm bound to keep moving on

And it just don't stop
And it just don't stop
And it just don't stop
And it just don't stop
And it just don't stop
And it just don't stop
And it just don't stop
And it just don't stop
