

All I Need

Anthony Evans

I got joy that's got me dancing in the morning
I got hope that takes the dark clouds away
Feelin' free cause I know that I'm accepted
I am loved
I'm redeemed

I got peace that goes beyond my understanding
I can see your mercy never runs dry

Feelin' grateful that your love will never fail me
I believe you will always be...

All I need
Your love will supply everything
All I need
When I think
Of the goodness of God
I wanna sing

All I need
Everything
All I need

All I need
Everything
All I need

I can't believe, after every road I've taken
You call me, and you welcome me home
I'm forgiven and if that wasn't enough
That's when you said, you will always be...

All I Need
Your love will supply everything
All I need
When I think
Of the goodness of God
I wanna sing

All I Need
Everything
All I need

All I Need
Everything
All I need

I'll never forget what you promised to me
Forever Jesus you're all that I need

I'll never forget what you promised to me
Forever Jesus you're all that I need

I'll never forget what you promised to me
Forever Jesus you're all that I need

All I Need

Your love will supply everything
All I need
When I think
Of the goodness of God
I wanna sing

All I Need
Everything
All I need

All I Need
Everything
All I need

My provider
My strong tower
You're all I need

My healer
My deliverer
All I need
