

Let It Die

Anthony Evans

I lost me when I went looking for you
Diggin' deep 'cause I thought you had the truth
Like some holy grail
Set us to fail
Now we're drivin' nails, drivin' nails

I want to forgive
Can't keep doin' this
If we wanna live
Let, let it die
Did the best we could
Still it wasn't good
That's the reason why
Let, let it die

Can't ignore or bury it under the floor
We both know this is as far as it goes
Oh to cut to you off
I can feel the loss
But it's worth the cost, what it costs

I want to forgive
Can't keep doin' this
If we wanna live
Let, let it die
Did the best we could
Still it wasn't good
That's the reason why
Let, let it die

(Let, let it die)

I know that you wanna keep it goin'
We been, we been livin' in the moment
But we gon' end up dyin' tryna hold on
You've had a hold on my focus
But now I'm startin' to notice
That we cannot force love
'Cause I'd end up givin' you my worst love
Wanna fight for you 'cause I stick to my word
But the vision blurred, messin' with my head
Tryna resurrect somethin' that's better dead
Lookin' in your eyes makes me wanna try
But nevermind that'd be my demise, hey, hey
Oh Lord, this is a mess
So I'ma let it die and wish you the best

I want to forgive
Can't keep doin' this (We can't)
If we wanna live (We gotta)
Let, let it die
Did the best we could (We tried)
Still it wasn't good (Still it wasn't)
That's the reason why (We gotta)
Let, let it die

I want to forgive (Let it die, let it die)

Can't keep doin' this (Let it die, let it die, let it die)
If we wanna live (Let it die, let it die, let it die)
Let, let it die (Let it die, let it die)
Did the best we could
Still it wasn't good (Still it wasn't)
That's the reason why
Let, let it die (Let it, let it, let it, die)
