

# Somebody to Call Home

Anthony Evans

I've traveled the world seen it all  
London in spring and New York in the fall  
Beautiful things I can hold  
But I want something I can't let go  
But there's a part, a part of me  
That longs for somebody

[CHORUS:]

To call home  
To call my own  
Somebody I turn to, somebody I lean on  
Whether I with them or whether I'm gone  
I wanna call  
I'm ready to call  
Somebody home

I believe you're out there looking for me  
Well I'm right here (right here)  
You're in my dreams, in my prayers  
In my heart  
You're everywhere, everywhere  
With all I am, I believe  
I'm closer now to finding somebody

[CHORUS]

Someone I can Love  
Someone I can trust  
Who believes in the man that I am  
And that man that I will become  
Someone I grow old with  
And share a goodnight kiss  
Over and over and over and over again

I want somebody...

[CHORUS]

I've traveled the world seen it all
