

## Devils Song

Anthony Green

Well I caught a demon in a mouse trap  
One day behind the house  
It said, " Please let me free, I'll do anything"  
We came to an agreement, made an exchange  
Your freedom for my name, then he began to sing

Devil's song, no it won't be long  
To finally see the evil you've become  
The Devil cries, all through the night  
I don't think there's a reason

Devil's song, no it won't be long  
To finally see the evil you've become  
The Devil cries, all through the night  
This feels like a nightmare

Well I was always told that you're a liar and not to trust  
And my name still means nothing and we're all still,  
We're all in the same spot [x5]

This feels like a nightmare (We're all still in the same spot)  
[x14]

This feels like a nightmare  
This feels like a nightmare  
We're all the same
