

How It Goes

Anthony Green

It seems so weird to me
Why its all those strangers
Will just bare their soul to see
If we have the answers
Don't ask us our opinions are insane
Nothing matters in our lives but love

And it seems so weird to me
How all these strangers
Will just gather round to see
If we can conjure answers
Never ask us our opinions are insane
Nothing matters in our lives but love
Never ask us our suspicions are the same
Ever wonder how it goes down
Ever wonder how it goes down
Ever wonder how its gonna go down
Ever wonder how its gonna go down
Ever wonder how it goes down
