

No Other Choice

Anthony Green

If I'm sure of only one thing
It's that I shouldn't be
All locked up in hesitation
This won't last

I can see in all directions
What it means when you say sorry
I don't know if I can trust it
But I have no other choice
But I have no other choice

Oh, I wish you'd fit
Hanging on everything you say
Oh, I wish you'd quit
Dripping on every single thing

Oh

I don't even know what time it is
In my dream
It feels like I'm always falling
Or I'm fucking something up

I don't know if I can love you
But I have no other choice
But I have no other choice

Oh, I wish we'd fit (We got so high trying)
Hanging on everything you say
Oh, I wish you'd quit
Dripping on every single thing (single thing, single thing)
Not my style

Oh, I wish we'd fit
Hanging on everything you say
Oh, I wish you'd quit (We got so high trying)
Dripping on every single thing

Oh, I wish we'd fit (We got so high trying)
Hanging on everything you say (thing you say)
Oh, I wish you'd quit
Dripping on every single thing (single thing, single thing)
