

# When You Sang to Me

Anthony Green

A little part of me still wants and always wonders if  
If we had found the missing piece  
How would it be

I wasn't the only one awake  
When you sang to me  
Just how I imagined it would be  
When you came

I never wanted you to know who I used to be  
Denying it just forces it to show  
But you couldn't see

I wasn't the only one awake when you came to me  
Just how I imagined it would be when you sing  
La la la la la la I need you to (I need you, I need you)  
La la la la la la Come with me (I need you, I need you)

Time will tell the most important thing - if it's lasting  
I wouldn't want you any other way  
So come with me - Come with me

I wasn't the only one awake when you came to me  
Just how I imagined it would be when you sing  
La la la la la la I need you to (I need you, I need you)  
La la la la la la Come with me (I need you, I need you)
