Figure It Out

Anthony Ramos

All alone on my phone, in my bedroom
Johnnyswim in again in my headphones
On the prayer but I put on the cable
Left a good book closed on the table

Filling my mind with distractions
Wasting my time on bad habits
Spending my nights with amigos
Feeding my ego

And why am I pushing away what silence has to say?
Why do I push through the day?
Like tomorrow's gonna figure it out, figure it out, figure it out
Like someone else will figure it out, figure it out, figure it out

Give advice to my friends 'bout their problems
But when they're mine, I forget how to solve them
I've been throwin' this pain in this closet
Hoping I'd eventually forget about it

Filling my mind with distractions
Wasting my time on bad habits
Spending my nights with amigos
Feeding my ego

And why am I pushing away what silence has to say?
Why do I push through the day?
Like tomorrow's gonna figure it out, figure it out, figure it out
Like someone else will figure it out, figure it out, figure it out

I'm making me a promise to admit my problems
Ain't sayin' I'ma solve 'em but I'm making progress
I'm making me a promise to admit my problems
Ain't sayin' I'ma solve 'em but I'm making progress
I'm making me a promise to admit my problems
Ain't sayin' I'ma solve 'em but I'm making progress
I'm making me a promise to admit my problems
Ain't sayin' I'ma solve 'em but I'm making progress

And why am I pushing away what silence has to say?
Why do I push through the day?
Like tomorrow's gonna figure it out, figure it out, figure it out
Like someone else will figure it out, figure it out, figure it out

I know I'm gonna
I know I'm gonna
I know I'm gonna figure it out, figure it out
