

Good Time

Anthony Ramos

Aye

Know I been locked away, been in the cut
Was gonna stay in again till you hit me up
Wait
You with the crew, save me a cup
Don't take too much
To get me

Feeling it

You on that wave and I wanna swim in it
You a dulce latte, I'm the cinnamon
Drunk off your high, I feel the adrenaline
I'm giving in

Make me come alive

I'm here to have a good time
I'm here to have a good, good time
I'm here to have a good time
I'm here to have a good, good

Show me

Every little thing that I've been missing
Stevie and the migos got me singing
Yeah, the night is young, you got me thinkin'
Where we going?
'Cause you got me

Feeling it

You on that wave and I wanna swim in it
You a dulce latte, I'm the cinnamon
Drunk off your high, I feel the adrenaline
I'm giving in

Make me come alive

I'm here to have a good time
I'm here to have a good, good time
I'm here to have a good time
I'm here to have a good, good

I'm here to have a good time
I'm here to have a good time
I'm here to have a good time
I'm here to have a good time...

Make me come alive

I'm here to have a good time
I'm here to have a good, good time
I'm here to have a good time
I'm here to have a good, good

I'm here to have a good time
I'm here to have a good time
I'm here to have a good time
I'm here to have a good time...
