

# Vicariously

Anthony Ramos

Stayin' out late at night, yeah I love it  
Couple sips 'til I'm tipsy, it's nothin'  
Guess I gotta loosen up my grip on your lovin'  
Realizin' that I can't be what you wantin'  
Makin' love like we was 'bout to have a baby  
Grip that ass while you on top, goin' crazy  
You know you the only one that know just how to make me  
Do whatever you want to me baby

But no way it's the right time (no way)  
No way I'm in the right mind (no way)  
No way I'm the right guy (no way)  
No way girl, no you ain't mine

I can't help if you walk away  
Won't tell you to stay  
So I'll just be what you need, vicariously  
No I can't convince you to change  
Your mind 'cause it's made  
So I'll just be what you need vicariously

You wanna lay up, watch a movie in the late nights  
We makin' dinner, makin' love, want me to make time  
But when you met me girl you knew what I was livin' like  
Yeah I was here, I was there, I couldn't get it right  
Losin' you won't be easy, but you know what you need and  
You won't find it in me babe  
So I'll be on my way 'cause there ain't no way

But no way it's the right time (no way)  
No way I'm in the right mind (no way)  
No way I'm the right guy (no way)  
No way girl, no you ain't mine

I can't help if you walk away  
Won't tell you to stay  
So I'll just be what you need, vicariously  
No I can't convince you to change  
Your mind 'cause it's made  
So I'll just be what you need vicariously

No, no I don't wanna take  
Your heart and waste it  
Break it to pieces  
So my babe  
Let's stop playing games  
You don't need the pain of staying  
I'll be what you need, vicariously

I can't help if you walk away  
Won't tell you to stay  
So I'll just be what you need, vicariously  
No I can't convince you to change  
Your mind 'cause it's made  
So I'll just be what you need vicariously
