

24 Hours

Anthony Russo

Been fucking for awhile baby
Still haven't seen your bad side
Your clothes all on the ground
If they take a look around
They would think you prolly stay at mine

Been ducking all these hoes lately
Can't jeopardize those brown eyes (yeah)
We toast another round baby let me take you down now

Cause I got 24 hours to your lipstick baby
24 hours till we ditch this
Never thought I would let it get this crazy
Never though love would happen this quick

Ah baby
You make it impossible
So don't let me down now you got control

You sneaky sneaky
You make the bed up just to make that shit go squeaky squeaky
You wanna make a mess cause you my lil freaky freaky
I need that shit like everyday not every weeky weeky

All my party tricks they were nice
Your type doesn't flinch at the price
All I wanna do is just rock all night

Cause I got 24 hours to your lipstick baby
24 hours till we ditch this
Never thought I would let it get this crazy
Never though love would happen this quick

Ah baby
You make it impossible
So don't let me down now you got control
